Frontend Development
Tops Technologies, surat [*2025 – Present*]

Projects

1. Farmers Information Website
HTML5, CSS3, Responsive Design
Created a responsive website for farmers that provides information about crops, fertilizers, farming techniques, and government schemes. The website is mobile-friendly and easy to navigate.

Skills

HTML5   –   Web page structure and semantic tags
CSS3   –   Styling, Flexbox, Grid, Responsive design
JavaScript –   DOM manipulation, basic logic, events
React.js   –   Components, props, state (basic level)
Git & GitHub – Version control and project hosting
Responsive Design – Mobile-friendly layouts
Interpersonal Skills -I have good communication skills.
